MAGNETIC R	ECORDING MEDIUM
Patent Number:	JP57176531
Publication date:	1982-10-29
Inventor(s):	TAKAGI HIROTSUGU; others: 02
Applicant(s):	CANON KK
Requested Patent:	☐ <u>JP57176531</u>
Application Number	JP19810061871 19810423
Priority Number(s):	
IPC Classification:	G11B5/66
EC Classification:	
Equivalents:	

	Abstract
in flatness and vertic a high-permeability in nonmagnetic support CONSTITUTION:A is surface is formed or permeability in-surfa- permeability material magnetization recon- flatness of the surface	ve a vertical magnetism recording medium having vertical magnetization film excellent cal orientation, by removing the 1st nonmagnetic support after forming a Co-Cr alloy film, n-surface magnetization layer and the 2nd nonmagnetic support in order on the 1st
